## Instructions for Completing a Generator Registration Form

- When filling out forms on the computer, use only the tab key to move your cursor - do not use the return key.
- If you generate **27 gallons or more of hazardous waste** or **270 gallons or more of waste oil in any calendar month**, you should complete a notification form, not the attached registration form. Please call DEP's Infoline at 617-338-2255 or 1-800-462-0444 for a copy of the notification form and instructions.
- Check off if you are registering as a Small Quantity Generator of Waste Oil, Very Small Quantity Generator of Waste Oil, or a Very Small Quantity Generator of Hazardous Waste. You can be both a waste oil generator and a hazardous waste generator. Note that Small Quantity Generators of Waste Oil have additional hazardous waste management requirements.
- Check off which DEP region your business is in. You can find a list of regions and towns below.
- If you do not already have a MAD, MAR, MAV or MA5 Number, enter MV, followed by your Area Code and Telephone Number as your Generator Registration Number.
- Enter your business' Standard Industrial Classification (SIC) Code. A list of SIC codes commonly used for VSQG is attached. More information can be found at: <http://www.osha.gov/oshstats/sicser.html>
- Note: The SIC Codes may be changing in the future as state and federal government offices adopt a new system of industrial classifications called the North American Industrial Classification System (NAICS). This fact sheet will be updated at that time.
- Return the signed original to the appropriate DEP Regional Office.
- **Keep a copy of your registration form. This will be your receipt of registration. DEP will not send a confirmation.**
